

Blank Space Parody – PR Pubs  
University of Oklahoma  
Spring 2015

By: Katie Carter

Nice to know you, PR Pubs  
I've designed some incredible things  
winning, typewar, extra, credit  
A challenge and I thought  
Oh my God, look at that font  
You look like my next design  
Pubs a game, wanna play?

Symbolism, color and space  
I can spot you like a polka dot  
Ain't it funny, Bootcamp lies  
And I know you heard about Indesign  
let's be friends  
I'm dying to see how bootcamp ends  
Grab my mouse and my blog  
I can make Adobe my friend for the weekend

So it's gonna my fav class,  
And it's gonna go down in Gaylord  
You can tell me when it's over  
If the time was worth the gain  
Got a long list of projects and  
They'll show you how far I've come  
'Cause you know I love reflections  
and Croom taught the class!

'Cause we're photoshop and canva  
We'll take the sprint too far,  
It'll give you cover  
Or profile pictures,  
Got a long list of projects and  
They'll be created in Indesign  
But I've got a blank space, Canva  
And I'll design your pic

Recruitment services, design sprint  
I could make you incredible things  
Stolen pictures, not a chance  
Croom is serious about  
Plagiarizing  
You'd better not, Google that to get some art  
Or, the worst is yet to come, oh no

Learning different typography  
I can make all the business cards  
Design Blitz all on campus  
Keep you looking around like  
"Oh my God, what is that?"  
That looks like use of space  
But keep on looking each time you're there  
'Cause, darling, I'm symbolism dressed like a statue

So it's gonna be my fav class,  
And it's gonna go down in Gaylord  
You can tell me when it's over  
If the time was worth the gain  
Got a long list of projects and  
They'll show you how far I've come  
'Cause you know I love reflections  
and Croom taught the class!

'Cause we're young with wordpress  
We'll write a lot of blogs  
It'll be three novels  
It'll leave Croom speechless  
Got a long list of projects yeah  
He'll tell us to do them all  
But if you have the chance, Gaylord,  
You'd better take the class.

Use the Wiki page as much as you can  
Don't say I didn't say, I didn't warn ya  
Use the Wiki page as much as you can  
Don't say I didn't say, I didn't warn ya

So it's gonna my fav class,  
And it's gonna go down in Gaylord  
You can tell me when it's over  
If the time was worth the gain  
Got a long list of projects and  
They'll show you how far I'm come  
'Cause you know I love reflections  
and Croom taught the class!

'Cause we're young and we love pubs  
We'll take this away with us  
It'll leave you smarter  
With crazy design skills yeah  
Got a long list of work samples  
They'll help getting a job  
But we've got a bright future, baby  
And I loved the class!
